AMENDMENT

This is submitted in response to the Office Action mailed January 14, 1999, on or before the current due date of April 14, 1999. Please consider the following amendments and remarks.

In the Claims:

Please amend the claims as follows:

- Sub C1*
1. (Amended) A method of treating a skin surface with a wrinkle, the skin surface overlying a collagen containing tissue, comprising:
B1
 identifying a person suspected of having a skin surface with a wrinkle;
 providing an energy source with an energy delivery surface;
 positioning the energy delivery surface in contact with the skin surface;
 creating a reverse thermal gradient, wherein a temperature of the skin surface is less than a temperature of the collagen containing tissue;
 delivering energy through the skin surface to the collagen containing tissue and contract at least a portion of the collagen containing tissue with controlled cell necrosis; and
 reducing a depth of the wrinkle.

- Sub C2*
6. (Amended) The method of claim 5, further comprising:
B2
 a source of electrolytic media coupled to the RF electrode.
